Alternatives 4 children

About Legends4Legends

Legends4Legends is the leading annual alternatives investor conference in Europe with an in-depth focus on the investment topics of our time. Legends4Legends raises money for Alternatives 4 Children. Alternatives4Children (A4C) is an independent charitable foundation established in 2011 in the Netherlands with the aim to involve professionals from the (Alternative) Financial industry and the conviction that, together, we can make a difference for children in need. Since 2020 we also have a UK registered Chapter and are open to expand in other countries. Our primary focus is on SDG 4: ensure inclusive and equitable quality education and promote lifelong learning opportunities for all. We aim to make a difference for children of all age by supporting small scale projects with high impact potential. Theta Capital is the main sponsor of the event and curates the agenda. Theta Capital is the leading fund of funds program for crypto-native venture capital. Theta has been investing in Blockchain Technology since 2017 and is the first AIFMD licensed manager in the space. **To donate visit: <https://alternatives4children.com/donation/>**

The information provided during the conference is for discussion purposes only and is not an invitation to invest in any fund. Before making any investment decision, please refer to the Information Memorandum and subscription documents. Investing in blockchain technologies entails very high risks and investors may lose all their investment.
